

# PROJECT 4.2 — UK HOUSING MARKET INSIGHTS (EXCEL)

# Project Title

---

UK Housing Market Insights

Helping First-Time Buyers  
Make Smart Decisions

# Scenario Overview

---

You work as a **Junior Data Analyst** for a property advisory service that supports **first-time buyers** across the UK. Your task is to analyse a **realistic 2024 housing dataset** to help buyers understand:

- Which regions are most affordable
- How property types differ in price
- Where sales volumes are rising or falling
- What insights can help buyers make informed decisions

You will use **Excel** to clean data, build pivot tables, create charts, and write a short insight summary.

# Dataset Description

The dataset includes:

**Region**

**Property Type** (Detached,  
Semi-Detached, Terraced, Flat)

**Average Price (£)**

**Sales Volume**

**Year (2023–2024)**

# Task 1

## Data Cleaning

- 1.Remove duplicates
- 2.Check for missing values
- 3.Ensure all prices are formatted as **Currency (£)**
- 4.Ensure sales volumes are **whole numbers**
- 5.Create a clean working sheet called **“Cleaned\_Data”**

## Task 2

### **Pivot Table: Average Price by Region**

Create a pivot table showing:

- **Rows:** Region
- **Values:** Average Price (Average)

Then create a **Column Chart** showing the average price per region.

# Task 3

## Pivot Table: Property Type Breakdown

Create a pivot table showing:

- **Rows:** Property Type
- **Values:** Average Price (Average)
- **Values:** Sales Volume (Sum)

Then create a **Pie Chart** showing the **percentage share of sales volume** by property type.

# Task 4

## Year-on-Year Comparison

Create a pivot table comparing:

- **Rows:** Region
- **Columns:** Year
- **Values:** Average Price (Average)

Then create a **Clustered Column Chart** showing price changes from 2023 → 2024.

# Task 5

## **Insight Summary (150–200 words)**

Write a short insight summary explaining:

- Which regions are most/least affordable
- Which property types offer best value
- Where sales volumes are strongest
- Any noticeable year-on-year trends
- What advice you would give a first-time buyer

# Assessment Criteria

| Criteria               | Pass                     | Merit                         | Distinction                            |
|------------------------|--------------------------|-------------------------------|----------------------------------------|
| <b>Data Cleaning</b>   | Basic cleaning completed | Fully cleaned with formatting | Cleaned + documented + well-structured |
| <b>Pivot Tables</b>    | Correct fields used      | Accurate + labelled           | Efficient, well-designed, with slicers |
| <b>Charts</b>          | Basic charts created     | Clear, labelled charts        | Dashboard-ready visuals                |
| <b>Insights</b>        | Describes findings       | Explains patterns             | Evaluates trends + gives advice        |
| <b>Professionalism</b> | Work is readable         | Work is structured            | Work is presentation-ready             |
